

To whom it may concern:the effort to limit programing chioces for XM radio providers by the National Association of Broadcasters is outrageous. This attempt must be stopped! We, XM subscribers, have the right to choose our source of information, and an attempt to excercise NAB's lobbying power to stop it must be nipped in the bud.

Please reject the NAB petition 04-160.

Respectfully,

Igor Bondarenko
Alpharetta, GA
